

Hotel Roof Deck with Pool, Santa Barbara, CA

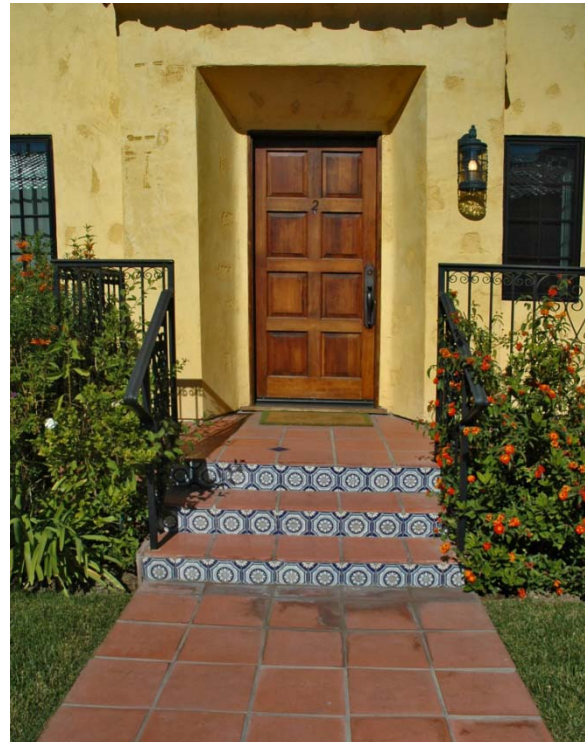

Retirement Housing, Palos Verdes Peninsula, CA

Hotel Roof Deck Access, Santa Barbara, CA

We created California Saltillo to offer an alternative to our more authentic Saltillo line. California Saltillo is more uniform than our rustic Saltillo line therefore a better choice for commercial applications while maintaining the typical California ambience many West Coast residence and visitors are expecting.

Off Campus Student Housing, Los Angeles, CA

| <u>Test Results:</u>          | <u>ASTM #</u> | <u>Results</u> | <u>Comments</u>  |
|-------------------------------|---------------|----------------|------------------|
| Water Absorption              | C-373         | 7.75%          | Unsealed         |
| Breaking Strength             | C-648         | 988 lbs        | 0.75" thickness  |
| Modulus of Rupture            | C-674         | 1374           | 0.75" thickness  |
| Abrasive Hardness             | C-501         | 27             |                  |
| Coefficient of Friction (COF) | C-1028-07     | 0.70           | Smooth Surface   |
| Coefficient of Friction (COF) | C-1028-07     | 0.77           | Light Sandblast  |
| Compressive Strength          | C-140-75      | 6027           | 0.825" thickness |

Notes:

Expect naturally occurring color variations typical for concrete, unglazed ceramic and stone tile products. Apply a quality sealer for wear factor improvement and ease of maintenance. Notify the factory in case of intended exterior use in freeze-thaw climates.
